

Notice of Grade Name Change

Page: 1 of 1

Date: Oct.17, 2022

Dear customers and partners:

Herer in we would like to extend our sincere gratitude to your support and recognition of the work of our Company. Considering the development of our company, we will unify the grade name of FKM precompund we used for China domestic market and overseas market

We decided to change the prefix of FKM Precompound “DHP” into “FD”, which we have been using for China domestic market for years uniformly. For example, the previous grade was DHP-201NC, and then it will be changed to FD-201NC. The previous grade was DHP-401C, and then it will be changed to FD-401C, and so on.

Except the change in the prefix of grade name, there is no change in its related processing, formula and properties. The TDS, MSDS, etc. of the related grades will be modified accordingly. Other series' prefixes such as DHF, DTR, etc. will be remain unchanged.

Please be well- informed and your kindly understanding is highly appreciated. If you have any questions or needs, please contact our business department.
